ABOUT ME

I'm Vijander Singh Sodha, an IT student at Sindh Agriculture University, Tandojam, and a trainee at Saylani Mass IT Training (SMIT). I'm passionate about Python, Data Science, Machine Learning, and Artificial Intelligence, and I enjoy building creative, data-driven projects. My goal is to become a skilled AI and Machine Learning Engineer dedicated to solving real-world problems through technology.

SKILLS

- Data Science
- Artificial Intelligence
- Machine Learning
- Python with Power BI
- Data Analysis
- Project Management
- Web Development
- Client Collaboration & Communication

EDUCATION

Undergraduation in IT Department
University of SAU (2023-2027)

Intermediate Education
New Arqam Public College (2021-2022)

ACHIEVEMENTS & CERTIFICATION

1. Cyber Security
2. Artificial Intelligence
3. Web Development

PROJECTS

1. Portfolio
2. Calculator
3. Restaurant Website

EXPERIENCE

IT STUDENT | SINDH AGRICULTURE

Present (2023-27)

Tandojam, Hyderabad

- Gained hands-on experience in programming, database management, and software development fundamentals.
- Worked on small-scale projects such as calculator apps and games using Python.
- Collaborated with classmates on coding assignments and data-driven projects to enhance teamwork and problem-solving skills.
- Developed a strong foundation in Artificial Intelligence, Machine Learning, and Data Science concepts through coursework and self-learning.

INTERNSHIP | PITP

(PRESENT)

PITP Qasimabad

- Learning and applying core concepts of Python programming, Databases, and Data Science through academic and practical projects.
- Gaining hands-on experience in Machine Learning, Data Analytics, and Artificial Intelligence as part of my training and coursework.
- Building small projects such as a Calculator, Tic Tac Toe Game, and Portfolio Website to strengthen technical skills.
- Enhancing analytical thinking, problem-solving, and teamwork abilities through collaborative learning and real-world exercises.

INTERN COURSE | SMIT

(PRESENT)

SMIT MEMON SOCIETY HYDERABAD

- Undergoing intensive training in Python, Data Science, Machine Learning, and Artificial Intelligence through practical, project-based learning.
- Developing real-world skills in data analysis, model building, and database management using modern tools and techniques.
- Working on hands-on projects to apply theoretical knowledge in areas like data regression, prediction models, and automation.
- Continuously improving problem-solving, research, and technical presentation skills under professional mentorship.
